INTERNATIONAL SEARCH REPORTInternational application No.
PCT/JP2004/014229**Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)**

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:

2. Claims Nos.:
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:

3. Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

- Claims 1-13 relate to a recording apparatus comprising a setting means for setting a laser beam preferred projection state preferable to one recording layer in which information is to be recorded among recording layers for each recording state of another recording layer among the recording layers and a projecting means for projecting a laser beam in a set preferred projection state onto the one recording layer.
- Claim 14 relates to an information recording medium wherein at least one of recording layers among recording layers has an information management area in which preferred projection state information defining a preferred laser beam projection state preferable (Continued to extra sheet.)

1. As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.: 1-14

4. No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- The additional search fees were accompanied by the applicant's protest.
 No protest accompanied the payment of additional search fees.

to the one recording layer where information is to be recorded among the recording layers for each recording state of another recording layer among the recording layers.

•Claim 15 relates to an information recording medium wherein in order to define a laser beam preferred projection state preferable to one recording layer where information is to be recorded among recording layers, the information recording medium has a first trial recording area such that information is recorded in another recording layer among the recording layers and a second trial recording area such that information is not recorded in the another recording layer.
